

**Brand:** CMT Engineering

**Product:** Spartan® Standard Clamps

#### About our Spartan® range

CMT Engineering has developed the Spartan® range of clamps and floats to satisfy the requirements of the surface-finishing industry. We manufacture them at our plant in the UK.

#### Product types

##### **Spartan® Standard Clamps**

Spartan® Wedge Clamps  
Spartan® Plier Clamps  
Spartan® Euro Clamps  
Spartan® Box Clamps  
Spartan® DIY G-Clamp  
Spartan® Hexagonal Floats

#### About Spartan® Standard Clamps

- We have developed Spartan® Standard Clamps primarily for use in metal finishing plants as a fast clamping tool. They are capable of withstanding the corrosive attack of chemicals used within the industry.
- We mould Spartan® Standard Clamps in glass-filled Noryl for use in anodising, giving a maximum usable temperature of 105°C.
- We also mould them in glass-filled Radel, for use in electro-brightening and painting, and at temperatures of up to 220°C.
- Spartan® Standard Clamps come plain tipped as standard. We can supply tips for Spartan Standard Clamps® in titanium, increasing grip and reducing witness marks. Or in ceramic or zirconium for electro-brightening and two-step colour processes.
- The clamping force is provided by a fine-thread thumb screw. A coarse 'fast' thread version is also available.

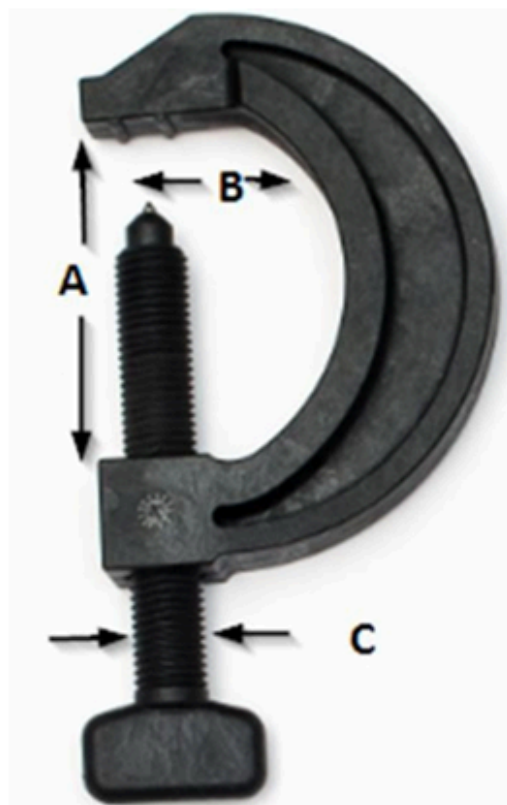

## Spartan® Standard Clamps

Product	Mouth opening in mm (A)	Mouth depth from centre line of screw in mm (B)	Screw diameter in mm (C)	Weight - each in g	Pattern
Spartan® Standard Clamp 40	40	32	12.7	55	Round
Spartan® Standard Clamp 60	60	38	14	89	Round
Spartan® Standard Clamp 75	75	40	16	116	Round
Spartan® Standard Clamp 110	110	65	18	228	Round

Noryl
